

The CureLGMD2i Foundation is very excited to announce our 10th Annual Casino Night, October 24th, 2020, and would like to invite you to join us for an evening of virtual games and auctions as we raise vital funds necessary to help us continue raising awareness and searching for treatments and cures for LGMD2i/R9.

Over the years, the support of our friends, families and local community has helped to make Casino Night our flagship fundraising event. However, the current COVID situation is requiring us to do things a bit differently as this year's event will be held on-line via Zoom. Although we will miss getting together in person with our supporters and loved ones, we are excited to make Casino Night an international event available to a much broader number of guests. **Can you help us make this year's virtual Casino Night a real success by being a sponsor and/or donating an auction prize?** There are several sponsorship opportunities available. Please see attached for more details of how you can get involved.

The CureLGMD2i Foundation is dedicated to finding effective treatments and cures for this life limiting disease and for the past ten years has helped to fund the research and development of various therapies and treatments for LGMD2i, and we are very excited to have two promising clinical trials starting in 2021 that will likely improve the quality of life for patients living with this condition! However, we are still looking forward to the next generation of gene editing technology that will hopefully provide a cure for everyone in our LGMD2i family.

With your support, the CureLGMD2i Foundation will continue funding these groundbreaking research programs, which provide hope and empowerment to the LGMD2i community. We will not give up the fight until a cure is found.

Thank you so much for your consideration and generosity!

Kelly Brazzo, Co-Founder/CEO
